Vereeniging Cas 332/8/2010

A11

I, Stephen Peter Wookey, state under oath in English that:

I am an adult male with ID number 5704065227086 and am 55 years old residing at 49 Lingerette Avenue, Sunninghill, Johannesburg and with cell phone number 083 303 6766. I am employed as Managing Director at Associated Computer Solutions (Pty) Ltd at 370 Rivonia Boulevard, Rivonia, Johannesburg, telephone number 011 275 2001.

On Saturday 24th July 2010 at 11:00am I visited my brother Mr Andrew Eric Wookey, ID number 6202125471082 who was 45 years old at Midvaal Private Hospital in Three Rivers, Vereeniging. My brother was suffering from jaundice and liver failure. In the presence of my sister, Mrs Avellyn Mary Gloyne ID number 5909080265108 cell phone number 082 3918504 residing at 49 Lingerette Avenue, Sunninghill, Johannesburg who was also visiting my brother at the same time, my brother told me that he believed that his illness was due to his wife poisoning him as he and his wife were in the process of going through a divorce and she wanted his house and she was always trying to get him to eat certain food that she had prepared for him even when he had prepared his own food. I asked my brother whether he had told his doctor about this as I knew the doctor was conducting a lot of tests to try to determine the cause of his illness. My brother said that he had told his physician, a Doctor Anderson who was practising at the Midvaal Private Hospital.

On subsequent visits in the days that followed, my brother also told me that when his wife visited him at the Midvaal Private Hospital, she brought him food that she had prepared and insisted he eat it even though, the staff at the hospital had said he was on a very strict diet due to the seriousness of his illness.

On Wednesday 28th July 2010 at 09:30 am, I again visited my brother at Midvaal Hospital and at this time I saw Doctor Anderson who told me that they had still not been able to determine the cause of my brother's liver failure, but that he was too ill to do further tests.

On Wednesday 4th August 2010 at 15:25 my brother passed away. I contacted a private pathologist, Dr Cliff on cell phone 082 442 8147, as I wanted a post mortem examination carried out. Dr Cliff told me that as I suspected poisoning, the post mortem had to be carried out by a state pathologist and a case needed to be opened at the police station. Dr Cliff did not perform any examination of my brother's body. My brother's body was transferred to the Sebokeng Mortuary where the state pathologist, Dr Schutte on phone number 016 988 9720, carried out a post mortem examination and sent sample for toxicology analysis to the Pretoria state laboratory.

I know and understand the content of this statement.

I have no objection to taking the prescribed oath.

I consider the prescribed oath to be binding on my conscience.
