CORRECT IDENTIFICATION OF THE DECEASED

I, **DR GOBILE M.P,** Qualifications: **MBCHB (NATAL)**. Declare under oath in English as follows.

(1) I am employed by Gauteng Provisional Government: Health as a Forensic Medical Officer.

(2) That at **SEBOKENG FPS** on the **12th of MARCH 2020**, I conducted a post mortem examination on the body of an **ADULT WHITE MALE (ADULT ASIAN MALE)** with Death register Number: **DR 301/2020** And recorded my findings on the form **SAP 359**, which facts I ascertained through an examination which require skill in biology, anatomy and pathology.

(3) **The deceased was identified by using a DNA method.**

(4) CORRECTION: the body is of an ADULT ASIAN MALE.

I declare that the content of this statement is true to the best of my knowledge and belief. This statement has been made in the knowledge that if it were tendered as evidence in court I would be liable to prosecution if I have willing fully stated in it anything which I know is false or which I not believe to be true.

1. I know and understand the content of this statement.
2. I have no objection to taking the prescribed oath.
3. I consider the prescribed oath to be binding on my conscience.

Dated at SEBOKENG **this 30 of OCTOBER 2020**

SCHEDULE OF OBSERVATIONS: De Deur CAS 117/03/2020

1. GENERAL:

On the 11th of October 2020 I examined the post-mortem and ante-mortem material supplied to me by W/O T Mkhuzangwe and Dr A Shrivastava respectively. The ante-mortem radiographs were compared with the post mortem radiographs, crowns and implants and the following points of concordance observed:

2. POINTS OF DENTAL CONCORDANCE:

16 porcelain crown and implant (characteristic distal overhang)
15 porcelain pontic (characteristically small and similar)
14 porcelain crown and implant (angulation of implant similar)
13 porcelain crown and implant (angulation of implant similar)
12 porcelain pontic
11 porcelain pontic
21 porcelain pontic
22 porcelain crown and implant (angulation similar)
23 porcelain crown and implant (angulation similar)
24 porcelain pontic
25 porcelain crown and implant
26 porcelain crown and implant
46 porcelain crown and implant
45 porcelain pontic
44 porcelain crown and implant (angulation similar)
43 porcelain crown and implant (angulation similar)
42 porcelain pontic
41 porcelain pontic
31 porcelain pontic
32 porcelain pontic
33 porcelain crown and implant

3. STORAGE:

All dental evidence pertaining to this case is kept behind lock and key at the Department of Oral Pathology, School of Dentistry, University of Pretoria.

4. CONCLUSION:

In the presence of multiple identifiable dental features and no unexplained discrepancies observed when comparing the ante-mortem and the post mortem radiographic images and dental bridges, it can be stated with absolute certainty that the unidentified body is that of Mr. Harkantbhai Nathvani.

Prof H. Bernitz
