The messages I was receiving however at midnight 1/5/2020 were long and I had a suspicion it was not him writing them . I maintained a one hour whats app conversation with the person I believed who was using his phone and deliberately insulted those he was staying with by referring to Sounitha Singh and her family as scammers. I did this to get a response and sure enough I did because at the end of the whats app conversation I was sent her picture and roses (emojis)

On 02/05/2020 the same person using my fathers phone whats apped my aunt to complain that I was disrespectful towards my father and that I was questioning about his money and that as a result the people he was living with were going to throw him out.

On 03 and 04 May thare was more erratic spending on my father's card. On 5/5/2020 my aunt rang me to enquire what was happening with my father as he had received the disturbing messages of 02/05/2020. I explained to her my fears that his phone had been stolen, he was unable to cntact otr call us and that monies totalling approx £2500 had been spent on his UK Santander card from 13/3/2020 to 4/5/2020. We decided to send my father a message to say his card would be stopped by the bank if he failed to call us within 24 hours to explain he was safe etc.

On receiving this message the person using my father's phone number replied that he was committing suicide as he no longer wanted to live. My aunt and I via separate messages were informed he had overdosed himself on tablets and that we would never find his body as he would be cremated.

Since that time there has been no communication with the UK phone and we have been blocked.

My father has an Indian SIM that was in his smartphone that is being used and the profile picture of the SIM user is strikingly similar of Sashen Gounden's girlfriend .

My father also has a CPAP machine that he said in April he no longer needed to use and that alarmed us as my father needs it to breathe at night.

The farility and disability of my father, his inability to contact us at all together with unuusual bank transactions that are not being made where he is said to be in Newcastle leads us to believe he is in great danger , being held against his will and it is all linked to Sounitha Singh and her sons.

We ask with urgency for the SAPS and Interpol to help us urgently locate our father

Yours sincerely

Mala Nathvani

WITNESS STATEMENT

Criminal Procedure Rules, r 16.2; Criminal Justice Act 1967, s. 9

URN

Statement of: Miss Mala Nathvani

Age if under 18: over 18 *(if over 18 insert 'over 18')*

Occupation: Pharmacist

This statement (consisting of one page(s) each signed by me) is true to the best of my knowledge and belief and I make it knowing that, if it is tendered in evidence, I shall be liable to prosecution if I have wilfully stated in it anything which I know to be false, or do not believe to be true.

Signature: Mala Nathvani (witness)

Date: 19th May 2020

This statement has been taken over the telephone by DC Simon North from the Metropolitan Police Service. I have had the opportunity to review the contents of the statement and confirm that the contents are to my knowledge accurate and true. The declaration above has been read and explained to me and I understand that this statement may be used in court as evidence.

This statement relates to a bank account held in the name of MR HARKANT NATHVANI and is regarding a number of transactions on this account between the 8th March and the 16th May 2020, which occurred in South Africa. The account is with Santander UK and is ACCOUNT NUMBER – 31732201 & SORT CODE – 09-01-36.
I am the daughter of MR HARKANT NATHVANI and as such I have legal access to my father's accounts. My Father is elderly and currently suffering from a number of significant medical conditions. As such in September 2019, it was decided that a power of attorney was obtained which allowed me to become a joint account holder on my father's Santander bank account number 31732201. This was to allow me to legally manage his financial affairs, to assist whilst he is out of the UK and in case he comes in to any difficulty.

Further to the statement I made on Monday 18th May 2020, I would like to add the following;

My father arrived in South Africa on 25th January 2020 and the very first transaction made on his UK Santander 123 Current Account is shown on the bank statement as on 10th March 2020.
I believe that my father was using his Indian VISA card from 25th January 2020 to the beginning of March and this correlates with my belief of him being safe and the UK Santander bank card for ACCOUNT NUMBER – 31732201 in his possession. However after 6th March 20202, we had no confirmed communication that we believe was from him and do not believe he was making transactions on this account.
I am now able to confirm that the last message we received, which we believed it to be from my father was 6th March 2020 as it contained details about his car insurance, which I feel verified that he sent it.
We were unable to verify his whereabouts and safety after the message we received on 6th March 2020 and given the fact that his UK Santander card started to be used, after this date. I believe that all transactions after this date, were not made by my father willingly nor with his consent or knowledge.
Furthermore my aunt received messages from my father's phone when lockdown started in March 2020. Stating that he was in isolation with five other men and they would play cards all day. He said they were not allowed to go out, so I do not believe he could have willingly been shopping during this time in Johannesburg, which is three hours away.
I sent numerous messages to my father via whatsapp in March 2020 to enquire why he was withdrawing so much money and to enquiry about his safety. The reply I received, was that he had been asked to buy appliances such as a dishwasher and TV for his room at Sounitha Gounden Singh's house. He explained he had to pay rent and asked me to respect his right to use his own money. I thereafter did not question him again until I saw the meat store transactions in mid April 2020 and by which time I was really worried for his safety as he was refusing to come home in his messages and he then stopped answering our messages and calls claiming he had wifi issues.
On the 6th May 2020 we received messages from my father's phone in which threats were made about him taking his own life but thereafter we as a family were blocked on his whatsapp UK number yet the Santander Bank card continued to be used.

16/5/2020	Cash withdrawal – ATM PnP Fam S/Mark Randburg	£181.27	- 3605.69

I do not believe that any of these transactions were made by my father because they were after the date we last heard from him, and very out of character. They were for small amounts, which my father would not do due to the transaction charge and the biggest reason one of all is that my father is Vegetarian and so would have no reason to buy meat.

I therefore do not believe that the bank transactions shown as conducted in South Africa on Santander UK ACCOUNT NUMBER – 31732201 & SORT CODE – 09-01-36 were carried out by or authorised by my father and as such I believe they are fraudulent transactions.

I have not given any person authority to use my father's bank card or authorised any money to be withdrawn from his account in South Africa.

On Tuesday 19th May 2020 I attended Santander in Milton Keynes and obtained a full bank statement for my father's Santander UK ACCOUNT NUMBER – 31732201 & SORT CODE – 09-01-36 from 27th January 2020 to 27th April 2020, which consists of seventeen (17) pages. I also obtained a mini statement for the same account from 25th April 2020 to 18th May 2020, which consists of two (2) pages. I scanned and emailed these documents to DC Simon North and submit these nineteen (19) pages of bank statement as my exhibit MN/1.
