Capitec message related to BOOMGAARD received on 04/04/2020

Page 143 of Appendix A

Sunita I know my daughter is looking for me. That is why you desperately trying to get hold of me. I am perfectly fine. I do not want to go back to my money hungry daughter. I am sorry that you and the lady in Johannesburg have to suffer the consequences. Who ever harass you show them this message and tell thaim that it is my choice. I tried to contact the lady in Johannesburg and we met at a filling station and I overheard her calling the police so my driver fled from the filling station and our van overturned. Luckily we were not hurt at at all. Several men helped to lift the van and fortunately it did not get much damage so we drove of fast before the police got to me. Please forgive me but I have to stay away from my daughter. I lied to the lady that I am staying at the Hyatt hotel. If I come to you I know you will hand me to the police. I made it very clear to my daughter that I will not go back but I did not expect her to get the SA police involved. The lady from Johannesburg is very upset with me. She even blocked my number. I am very scared and also very sick. My hips is troubling me a lot and my crutches is with you. I will come to you only if you promise me that you will not inform the police. I am not short of money. I will take care of you. Please pray for me at your iscon temple. Please let me know asap. I lost my other phone so I don't have any whatsapp as my UK number is not working here. Please help me and as promised I will take good care of you. The lady in Johannesburg didn't let me stay at her place so I stayed at a guest house and sometimes she used to pick me up or I used to take a cab to get to her.
